EXAMTHALON '23

FastTrack your Way to Success

After six successive sessions, we welcome you again to the most anticipated Emergency Medicine board exam simulation programme, the seventh edition of Examthalon at Jubilee!

Examthalon is a high fidelity simulation programme conducted annually for EM residents in India by the Department of Emergency Medicine of Jubilee Mission Medical College & Research Institute, Thrissur. It is a meticulously curated programme that aims to help the candidates to identify their strengths and weaknesses as well as equip them to brace the hurdles and prepare well in advance for the upcoming board exams. It is designed on the structure of DNB and MD board exams and involves renowned EM faculty from all over India.

This year, we are going back to the offline 2-day format, which would be more helpful for the exam going candidates as they get to interact and clear doubts in person with renowned EM faculty around the country. The simulation programme includes theory exams, case presentations, spotters, OSCE, didactic lectures as well as interactive session with the renowned faculties.

To unify the standard of assessment of trainees, we are organizing an Assessors' Training Programme (ATP) for examiners in association with the WHO – Collaborating Centre for Emergency & Trauma Care, South East Asia Region.
